

LegalEase: AI-Powered Legal Document Generator

Phase 07: Project Documentation Phase

Project Phase Document

Prepared for: LegalEase AI Project

Team: Srija M (Team Lead), Srivarshini M S, Subashree G, Subiksha M

1. Phase Objective

To prepare clear project records covering the problem, requirements, design, implementation, testing and usage of LegalEase.

Project Overview

Document the purpose and scope of LegalEase: AI-Powered Legal Document Generator.

Technical Documentation

Record the frontend, backend, AI integration, configuration and document-export structure.

Installation Documentation

Provide the required environment setup, dependency installation, API-key configuration and application run commands.

User Documentation

Explain how a user enters requirements, generates a document and obtains the output.

Testing Documentation

Record test scenarios, observed issues and the corresponding fixes.

Limitations

Generated content should be treated as a draft and reviewed appropriately; the system does not replace qualified legal advice.

Key Activities / Outputs

No.	Deliverable / Output
1	Project report
2	Architecture/design documentation
3	Installation guide
4	User guide
5	Testing report

No.	Deliverable / Output
6	Known limitations

Project Note

LegalEase is an AI-powered document-generation project. The generated material is intended as a draft and should be reviewed by an appropriately qualified person before being relied upon for legal purposes.
